**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation in claim 1, at line 15, of "being is installed at" is vague and confusing. At lines 18 and 19 of claim 1, it is unclear whether the "disposable vessels" or the "vessel conveying part" is installed at the lower partition. There is no clear antecedent basis for the "heating member" recited at line 22 of claim 1. At lines 22 and 23 of claim 1, it is not clear from where "hot-water" is provided. There is recited no previous structure for providing hot-water. There is no clear antecedent basis for the "hot-water supplying part" recited at lines 32 and 36 of claim 1.

***Claim Objections***

Claims 1 and 8 are objected to because of the following informalities: In claim 1, at line 30, "part70" should read "part 70"; In claim 8, at line 5, "arehingedly" should read "are hingedly". Appropriate correction is required.

***Allowable Subject Matter***

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The prior art fails to disclose the combination of a heating member and hot-water, together used to cook noodles within a vessel.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Chigira, Harashima, Hayashi et al., Waddell and Rudewicz et al. are cited for their disclosure of the state of the art.
